

Enrico Castelli

Aspirant Automation Engineer

About me

Highly motivated and ambitious student with a strong interest in robotics and automation systems. Fast learner with the ability to quickly grasp and apply new concepts in dynamic environments. Proactive and solution-oriented, with strong problem-solving skills and a collaborative mindset that enables effective teamwork.

Personal

Enrico Castelli
nationality: Italian
7 May 2003

Sport

Competitive **basketball** player since age 8, fostering communication, team awareness, and a positive environment.

Interests

- Travel
- Robotics
- Trekking
- Skiing

EDUCATION

2017–2022	Scientific Highschool LICEO SCIENTIFICO M.ALLEGRETTI · Vignola (MO), Italy 📍 Focused on scientific subjects. Final Evaluation: 100/100	
2022–2025	Bachelor in Automation Engineering POLITECNICO OF MILAN · Milan, Italy 📍 Final Evaluation: 100	
2025–now	Master in Automation and Control Engineering POLITECNICO OF MILAN · Milan, Italy 📍	

EXPERIENCE

02/2025– 06/2025	Student Competition: control to maximize the vehicle range of electric vehicles POLITECNICO OF MILAN · Milan, Italy 📍 This extracurricular course fostered teamwork while improving my communication and leadership skills in a collaborative environment. As part of the project, I developed a control strategy aimed at enhancing the efficiency of an RC car using MATLAB and Simulink. (click on the image for further details)	
10/2025– now	Member of Automation Engineering Association POLITECNICO OF MILAN · Milan, Italy 📍 Working in the AI-ARMS team. (click on image for further details)	
03/2026	Elements of neural networks for microcontrollers and edge AI POLITECNICO OF MILAN · Milan, Italy 📍 Extracurricular course taught by an STMicroelectronics employee focused on developing neural networks for image recognition, where I trained models using Keras on Google Colab and then implemented them on a microcontroller using STM software.	
03/2026– 06/2026	Member of AIRLab FRE team (Field Robotics Event) AIRLAB, POLITECNICO OF MILAN · Milan, Italy 📍 International autonomous agricultural robotics competition. Worked on markers recognition and localization using OpenCV histogram backprojection and graph SLAM (click on the image for further details)
